LinkedIn Stats

- started out in the living room of co-founder Reid Hoffman in 2002
- launched 5 May 2003
- world's largest professional network 480+ million members in 200+ countries
- mission to connect the world's professionals to make them more productive and successful
- LinkedIn is publicly held, diversified business model with revenues from member subscriptions, advertising sales and talent solutions
- acquired Pulse, SlideShare, Lynda, Connectifier now acquired by Microsoft
- started as a network, then publishing, next B2B platform
- <https://press.linkedin.com/news-releases>

Why?

- Around 8 million Australians have a LinkedIn profile (Facebook 15M, Instagram 7M, Twitter 5M, Pinterest 4M, Snapchat 3M Google+ ?)
- 14 times more likely to be viewed if you have a photo
- 7 times more likely to be viewed if your profile has been completed
- three most important sections – Photo, Headline, Summary (Top 2 lines)
- your network is your net worth – pull strategy rather than push strategy
- remember to include contact information in ‘Summary’ section (but add as sueellson [at] sueellson.com to prevent spam robots)

And also because...

- word of mouth referral verification tool (first page of search results)
- not what you know or who you know but **who refers you**
- value of your network (not security of one major client)
- rate of change of technology (keep up to date or be left behind)
- importance of keywords (in house and online)
- Digital Footprint (what is in Google), Literacy, Asset, Competency
- brand YOU (manage your own profile and business profile)
- 95% of decision makers (and people at parties) will Google you
